Amendments to Specification

Pages 19-20, rewrite the paragraph starting at line 21 on page 19, to read as follows:

Q1 The use of the magnetic recording head having the rectangular-shaped distribution of the magnetic ~~field~~ field applied on the magnetic recording medium can give the contour lines of the recording magnetic field the rectangular shape, so that edge of the recordable region is rectangularly shaped so as to record the rectangular-shaped magnetic bit.

Pages 20-21, rewrite the paragraph starting at line 20 on page 20, to read as follows:

Q2 The use of the magnetic recording head having the rectangular-shaped distribution of the magnetic ~~field~~ field applied on the magnetic recording medium can give the contour lines of the recording magnetic field the rectangular shape, so that edge of the recordable region is rectangularly shaped so as to record the rectangular-shaped magnetic bit.
